# Machine Learning for Life Sciences - Understanding viral pathogenesis and vaccine protection

DATE: **THURSDAY, MARCH 8TH, 2018**
TIME: **1:00 PM - 3:30 PM**

LOCATION: **SOUTH LAKE UNION**
BROTMAN AUDITORIUM
850 Republican St.,
Seattle, WA 98109

SPEAKERS:

JAN KOMOROWSKI, PH.D.

Chaired Professor of Bioinformatics | Uppsala University, Sweden.

Dr. Komorowski is a recognized authority in the field of Machine Learning for Life Sciences. His research focuses on developing models of biological systems from big genomic data by using established and new, own developed machine learning and statistical methods and algorithms.

CARL FREDRIK BARRENÄS, PH.D.

Researcher | Uppsala University, Sweden.

Dr Barrenäs is a research scientist at Uppsala University, in Uppsala Sweden. His work entails machine learning and bioinformatic approaches to understand viral pathogenesis and vaccine protection in the field of HIV/SIV. Dr Barrenäs entered this line of research as a post doc at the University of Washington 2013-2016.

This seminar is open to all faculty, staff and students. No registration is required.
